COMPUTER ENGINEERING STUDENT | FULL STACK WEB DEVELOPER

Motivated and detail-oriented engineer with a strong background in web development and full-stack systems, seeking to contribute to innovative and practical solutions in a dynamic engineering environment, with growing exposure to IoT-based applications.

EDUCATION

Fr. Conceicao Rodrigues College of Engineering (Fr. CRCE) Affiliated with the University of Mumbai

Bachelor of Engineering in Computer Engineering - CGPA: **9.03 (up to Sem 5)**

Expected May 2027

St. Xavier's College

Higher Secondary Certificate - Grade: **71%**

May 2023

Christ Church School

Indian Certificate of Secondary Education - Grade: **94%**

Jun 2021

EXPERIENCE

TechnodeIoT Solutions

Oct 2025 - Present

Designed and developed the IoT platform dashboard as a full-stack developer, enabling real-time monitoring and analytics, reducing manual monitoring effort by ~50% while supporting management of 100+ connected devices.

ACHIEVEMENTS

Runner-up - Coherence 2025

Mar 2025

Developed Screen Smart, an AI-based resume analysis tool for assessing candidate compatibility with job requirements.

Second Runner-up - Certifyo 2025 Hackathon

Jun 2025

Built Trippeer, a collaborative travel application that enables users to plan, organize, and share trips seamlessly.

Runner-up - Neural Nexus 2026 Hackathon

Jan 2026

Developed Trekky, a platform for planning, sharing, and tracking treks with AI-driven feedback and built-in safety mechanisms.

PROJECTS

[Pashu Pehchaan](#)

Feb 2026

Implemented Pashu Pehchaan, a livestock management platform with IoT-based health monitoring, digital animal identification, and marketplace features, contributing to full-stack development and real-time data pipelines.

[Vathavaran Variables](#)

Dec 2025

Developed Vathavaran Variables, a secure system for managing encrypted environment variables with GitHub OAuth and centralized configuration handling.

[Healix](#)

Jul 2025

A telemedicine platform providing video consultations, real-time chat, and appointment scheduling; contributed to frontend integration and calendar-based appointment management.

SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, TypeScript

Frontend: HTML, CSS, React.js, React Native, Next.js, Tailwind CSS, NativeWind, shadcn/ui

Backend: Node.js, Express.js, FastAPI, Prisma ORM

Database: MongoDB, PostgreSQL, Firebase, Supabase, Cloudinary

Deployment: Vercel, Render, Railway, Cloudflare Workers, AWS
